

QUALITY AIRCRAFT TOOLING

World Class Supplier of Ground Support Equipment

www.QAT.Aero

Quality Aircraft Tooling (QAT) customizes and manufactures high quality ground support equipment (GSE), specialized mechanical tooling, and engine handling equipment for commercial and U.S. military aircraft. Our expertise is offered to evaluate, calibrate, troubleshoot, upgrade, repair and test all GSE & tooling with a manufacturer's or customer's drawing. Every job undergoes rigorous dimensional quality control review to ensure accuracy before being shipped to you.

QAT manufactures thousands of Boeing, Airbus, Rolls-Royce, Pratt & Whitney, GE and other manufacturer's products. We tailor solutions to meet our customers' unique needs, as well as offer proprietary solutions that reduce maintenance downtime. Our products are used by commercial airlines, the military, and the general aviation industry world-wide.

Our team is comprised of a highly dedicated, knowledgeable, and skilled group of individuals committed to the satisfaction of our customers. We partner with like-minded companies to manufacture unique parts and tooling that can be found only at QAT.

Committed to Quality, Committed to You

- Precision grinding
- Metal finishing
- Deburring
- Sand blasting

QUALITY COMMITMENT

At QAT, controlling the quality of your order is a serious matter. We carefully cross-check manufacturers' drawings to ensure nothing is out of date. Our Quality Assurance procedures ensure consistent and accurate builds; nothing leaves the shop without a Quality Control sign-off. Certificates of Conformance, Traceability and Proof-loads, as appropriate, are provided with each order.

*Our guarantee is simple – If you're not happy, we're not happy.
Just let us know and we will make it right!*
